25X1

On 20 November, an additional 24 flatcars loaded with Ifa F 9 motor vehicles were dispatched to Poland. 2

1. [redacted] Comment. As compared with the last reported period, hard coal imports from Poland increased from 361 carloads to 409 carloads. Bauxite imports from Hungary which decreased considerable in late October, again increased to a daily average of 184 tons. This amount is still below the daily average of 500 tons which was observed previously. [redacted] part of the bauxite shipments arrived via Czechoslovakia and the Ebersbach border station probably in order to ease the traffic burden caused by increased coal imports via Horka. Two trains each consisting of 30 carloads of bauxite were reported entering East Germany via Ebersbach daily. [redacted]
